DETAILED ACTION

1. The substitute specification filed 3/12/07 has been entered.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: a reception method and apparatus for a wireless communication system are disclosed. The closest prior art Yoshida Makoto discloses similar method and apparatus. However, as argued by applicant in the response filed, 3/12/07, page 10, YOSHIDA does not teach or fairly suggest, in combination with the other claimed limitation, "confirming the demodulation scheme for which the predetermined likelihood is obtained as the demodulation scheme of the received signal without executing likelihood estimation of the demodulation schemes having lower priorities than the demodulation scheme for which the predetermined likelihood is obtained".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jean B. Corrielus whose telephone number is 571-272-3020. The examiner can normally be reached on Monday-Thursday from 9:30-3:00.
